- Frameworks & Libraries: Django, React.js (Vite, Next.js, CRA), Express.js, Material UI, React Native
- Databases: MySQL, MongoDB, Prisma
- Dev Tools: Git, GitHub, GitLab, Docker
- Testing: Pytest, Jest
- Other Technologies: Numpy, Scipy, ROS2, Linux

LEARNING

- Swift
- Google Cloud

PROFILE

I am a passionate programmer with over 8 years of experience. My journey began with website development, and over time I expanded my skills to building web applications and APIs using Django, Express.js, and React.js. I also have experience developing mobile applications with React Native.

I specialize in Python and JavaScript, which I know deeply both in practice and theory. For several years, I have been tutoring these technologies, which not only strengthens my own knowledge but also allows me to communicate complex concepts in a clear and accessible way.

I prioritize writing clean, well-organized, and maintainable code that adheres to best programming practices.

WORK EXPERIENCE

HexArcana Cybersecurity

Developed a server administration dashboard with a strong focus on both frontend and backend functionality. Utilized React.js for the user interface and Django for API implementation.

Python **Django** **JavaScript** **React.js** **Pytest**

Internship
January 2024

Solidstudio

Built CLI applications using Node.js, focusing on tools for automating report generation and data processing.

Node **Jest** **GitLab** **SheetJS**

Internship
May 2023

*** I agree to the processing of my personal data for this and future recruitment processes in accordance with GDPR.**
